

Good People of Randolph County:

This is to inform you what will be my first duty as sheriff.

As one nation under God, we profess, as stated in the preamble to the Constitution of West Virginia to “through Divine Providence... enjoy the blessings of civil, political and religious liberty.” Blessings only come when we submit to God’s perfect laws. Because the Constitutions of West Virginia and the United States do not violate God’s laws, I will when elected sheriff, by authority and duty, enforce their provisions.

Article I, Section 3, which prohibits the suspension of The Constitution of West Virginia, will be enforced by the Randolph Sheriff’s Department. For complete details, see “Constitution Party of West Virginia Press Release” on hudok.com and if published, in this newspaper.

All rights granted by God and guaranteed protection in either Constitution are inviolate; *they cannot be violated*. Governor Justice has unlawfully suspended the Constitution of West Virginia. People, businesses, and institutions have been adversely affected. They deserve and will receive the protection of the full power of the Randolph County Sheriff’s Office.

The county sheriff is the supreme law enforcement officer in the county, and the sheriff is the only elected county law enforcement officer. The framers of government wisely incorporated the power and responsibility in the people’s hands.

I pledge the Sheriff’s Department will enforce Article I, Section 3 to include:

1. Terminate all mandatory restrictions placed on businesses and schools.
2. Terminate the mandatory wearing of masks in all public places, private homes, and private vehicles.
3. Protect people from mandatory vaccinations.
4. Protect people from mandatory testing that is not 100% reliable.
5. Protect people from mandatory testing that is bodily invasive.

I will strongly encourage:

1. While private businesses have reasonable powers on their premises, I will encourage due diligence in determining any restrictions on their clientele.
2. I will request that those infected with any communicable disease take reasonable safety precautions.

As stated by several of the founders, our society is founded and reliant upon the concept of “self-governing.” If we cannot self-govern, we will turn to the power of despots. Our bequeathed constitutions might as well be thrown in a trash bin.

Sincerely, Phil Hudok

Important. The science behind the current pandemic response is not settled. In Prove All Things programs that have aired on Randolph Co. Channel 3 cable, evidence to the contrary is clear and convincing. All past PAT programs are archived on hudok.com. Watch episode 16 and episode 17 first.
